Nijhuis Saur Industries proudly announces B Corp certification for their entity in the UK & Ireland

Nijhuis Saur Industries B.V. is proud to announce that their entity Nijhuis Saur Industries UK & Ireland has achieved B Corp certification, joining a global movement of companies committed to meeting high standards of social and environmental performance, accountability, and transparency. As a B Corp, NSI UK & Ireland is now part of a growing community of businesses that are using their power to do good. This certification recognizes the dedication to sustainability, ethical business practices, and positive impact on stakeholders and the environment.

NSI UK & Ireland is deeply committed to sustainability, striving to minimize environmental footprint, promote water conservation, protect water quality, and support sustainable communities. By implementing innovative solutions and prioritising environmental stewardship, the aim is to make a positive impact on the planet and the people. The B Corp certification reinforces the commitment to ethical business practices, social responsibility, and overall sustainability.

"We are incredibly proud to have achieved B Corp Certification, which is a great testament to, and recognition of our sustainable business practices and the dedication of our people."

Said Ian Stentiford, Managing Director, NSI UK & Ireland, "We realise how difficult it is to achieve this certification and that very few companies are successful at their first attempt. We understand that certification is only the beginning of the journey, and we have embedded the framework to ensure we continually improve our processes, and ultimately, our business. B Corp is a force for good and we intend to leverage the worldwide movement to be better, every day, for our environment, our community, our customers, and our people."

Alexia Lennon, NSI UK & Ireland's Sustainability officer adds; "Achieving B Corp certification is a major milestone in our ESG journey, highlighting our commitment to driving a positive impact on both our community and the planet. At NSI UK & Ireland we are dedicated to using business as a force for good, creating meaningful impact for our employees, our clients, our community, and the environment. This is just the beginning of our journey, and we will continue working to create lasting, positive impact in everything we do."

Menno M. Holterman, President and CEO of NSI BV, mentioned: "This certification aligns with the core values and reinforces our position as a leader in sustainable water solutions to close the water loop. The future of water is in our hands as society and industries. The B Corp certification is not only a very

important achievement of the NSI team in the UK & Ireland, but also a true inspiration for all the NSI entities to enable our water champions around the world to create even more impact, help our valued customers and business partners to restore and close the water loop, contribute to a more sustainable and resilient future and give water ultimately the value it deserves. This is what we call #MissionWater.

About Nijhuis Saur Industries | www.nijhuissaurindustries.com

Founded in 1904, Nijhuis Saur Industries provides solid and adaptive solutions for sustainable and resilient water use, energy- and resource recovery. Since the inception of Saur's Industrial Water platform in 2019 more than 14 companies have been successfully acquired and integrated into one global operating company supporting municipal and industrial clients in over 140 countries with engineering and consultancy services, EPC / DBFOM project execution, mobile water solutions and O&M site services. With an extensive portfolio of innovative technologies and game-changing solutions, Nijhuis Saur Industries is delivering local, scalable, and circular water-on-demand solutions to more than 6.000 references around the world and contributing to a more sustainable and resilient future. Our purpose is to be an advocate for water, ensuring everyone gives water the value it deserves. With our unique Customer for Life approach, we protect water resources, contribute to the water-, energy-, waste- and food transition, and help to restore and close the water loop. We call it #MissionWater.
