The Industrial Water Solutions division of Saur Group further expand its activities with the acquisition of Suez Industrial Water Ltd.

Saur Group is pleased to announce that it has finalized the acquisition of Suez Industrial Water Ltd (SIW) following the approval of the CMA (Competition & Markets Authority) in the UK. SIW will now become the Nijhuis Saur Industries (NSI) Operations & Maintenance division, joining our already well-established team in the UK.

With vast experience and a diverse portfolio of leading industrial clients, the new NSI Operations & Maintenance division is a welcome addition to Nijhuis Saur Industries' rapidly growing solutions offering in the UK and Eire and an important expansion of the groups O&M activities.

Our Industry Operations & Maintenance division will offer both long-term O&M contracts and short-term asset care services supported by expert guidance and laboratory capacity and capabilities. Our O&M customers will also have access to the game-changing technology portfolio of (waste)water treatment, biogas, energy, and resource recovery solutions and added value services to help their industrial customers to meet the ever-demanding requirements to reduce their water, energy, and CO2 footprint, contribute to their Net Zero targets and a more sustainable and resilient future.

Ian Stentiford, Managing Director of NSI UK & Eire comments: "We are really excited to welcome the employees of SIW to our Nijhuis Saur Industries UK team. We believe our Customer for Life philosophy differentiates us and augmenting our already strong Service teams with the market leader in Industrial Operations & Maintenance completing our strategy to deliver integrated solutions to our rapidly expanding clientele."

Jason Smith, Managing Director of SIW comments: We are delighted to be joining Nijhuis Saur Industries, our business is recognized as the UK leader for industrial water services and we have been providing our valued industrial end-users with successful water services for many years. At the heart of everything we do is always: safety, quality, reliability, and efficiency. By joining Nijhuis Saur Industries, our customers will be further enhanced and contribute to Saur's #MissionWater.

About Saur's Industrial Water Solutions: IWS provides solid and adaptive solutions for sustainable and resilient water use, energy and resource recovery for Light and Heavy Industries, Utilities, and Commercial Buildings around the world. We deliver an extensive portfolio of innovative technologies, game-changing solutions and added-value services to protect water resources. With our unique Customer for Life approach, we help industries, utilities, and cities to comply with 'reduce, remove, reuse and recover', closing the water loop. Our portfolio of water solutions relies on the extensive knowledge and experience of Nijhuis, Econvert, Unidro, Nortech, Riventa, PWNT, Byosis, Sodai, Flootech, Aqua-Chem and NSI Mobile Water Solutions.
